[Southwest Farm Press - Fibertect textile wipe receives additional funding from the U.S. Military](#)

Fibertect nonwoven textile wipe, developed at Texas Tech University (TTU) and invented by Dr. Seshadri Ramkumar of TTU, USA, has received additional funding from the U.S. Army.

A press release from TTU noted that Fibertect wipe research which is a part of a major research program by the Zumwalt Program at TTU has received continued support to enhance its applications.

The Institute of Environmental and Human Health (TIEHH) at Texas Tech recently received a \$1.1 million research award from the U.S. Army's [Research, Development and Engineering Command](#) to continue funding the Admiral Elmo R. Zumwalt Jr. National Program for Countermeasures to Biological and Chemical Threats.
